Blueprint in knowledge domain

(Representative example only. Actual figures may vary with the subject and phase)

Level	Topic-A	Topic B	Topic C	Topic D	Total
Knowledge	1	2	1	1	5(20%)
Comprehension	1	1	1	2	5(20%)
Application	2	1	1	1	5(20%)
Analysis	1	1	2	2	6(24%)
Synthesis		1		1	2(8%)
Evaluation	1		1		2(8%)
Total	6(24%)	6(24%)	6(24%)	7(28%)	25(100%)

Verbs in various levels in Knowledge domain (Bloom's taxonomy)

Knowledge	Define, Describe, Draw, Find, Enumerate, Cite, Name, Identify, List, Label, Match, Sequence, Write, State, Choose,		
	Indicate, Isolate order, Recognize, Underline		
Comprehension	Discuss, Conclude, Articulate, Associate, Estimate, Rearrange, Demonstrate Understanding, Explain, Generalize, Identify,		
	Illustrate, Interpret, Review, Summaries, Extrapolate, Update		
Application	Apply, Choose, Compute, Modify, Solve, Prepare, Produce, Select, Show, Transfer, Use		
Analysis	Analyze, Characterise, Classify, Compare, Contrast, Debate, Diagram, Differentiate, Distinguish, Relate, Categories		
Synthesis	Compose, Construct, Create, Verify, Determine, Design, Develop, Integrate, Organise, Plan, Produce, Propose, Rewri		
Evaluation	Appraise, Assess, Conclude, Critic, Decide, Evaluate, Judge, Justify, Predict, Priorities, Prove, Rank		

The question part of the MCQ (item) is called STEM; correct answer is called the KEY and the rest of the options are called DISTRACTORS.

Steps in writing:

- 1. Select the specific learning objectives, which you want to test.
- 2. Write the stem, it should be self-explanatory and complete, avoid using terms like (NOT, EXPECT, NEVER, ALWAYS, SOMETIMES) in the stem, if the terms are being used, they should be in UPPERCASE and **bold** letter.
- 3. Write unambiguous and unarguably the correct answer to the stem.
- 4. Select the most plausible alternatives and arrange them in the form of options.
- 5. Avoid window dressing of the stem. This means adding superfluous and unnecessary words, which confuses the student.
- 6. Abbreviations should be avoided.
- 7. Options should be grammatically parallel to the key, and should be parallel and have the same relation to the stem.
- 8. When writing options, avoid duplications or making options all-inclusive, e 1-6, 6-10 etc.
- 9. The options should be arranged in rank order, e.g., 256,266,280,290 and not 290,266,280,256.
- 10. "All the above" and "None of the above" should be avoided as an option.

Distribution of Marks-ENT

Papers		Maximum Marks	Minimum Passing marks
Theory (Summative Assessment) (100 Marks)	Theory paper (sample paper Attached)	100	At least 50% marks
Practical *(Summative Assessment) (50+50) 1. Practical/Clinical examinations will be conducted	Long Case (30 marks) Short case (20 marks)	50	50% (Practical + Viva)
2. Viva/Oral examination	Viva (25 marks) X-ray and Instruments (25 marks)	50	
Internal Assessment (Not added to the marks of the university examinations and	Theory	100	50 % Combined in the theory and practical (not less than 40% in each for eligibility for appearing
should be shown separately in the grade card)	Practical	100	for university examination)

^{*}During practical examination you are requested to use different methods of assessment tools to improve authenticity. Please refer to competency-based assessment module for UG medical education for more examples of assessment tools.

Formative & Internal Assessment:-Internal assessment shall be based on day-to-day assessment. Efforts should be made to use multiple tools even for a given competency to improve validity and reliability of assessment.

It shall relate to different ways in which learners participate in learning process which is day to day recorded in record book and log book in the form of:-

- a) Assignments,
- b) Preparation for seminar,
- c) Clinical case presentation,
- d) Preparation of clinical case for discussion,
- e) Clinical case study / problem solving exercise participation in project for health care in the community
- f) Proficiency in carrying out a practical or a skill in small research project etc.

Regular periodic examination shall be conducted throughout the course as per following schedule:-

	Theory Internal Assessment	Practical Internal Assessment	
	(Weightage in the form of marks)	(Weightage in the form of marks)	
First assessment test	15	10	
Second assessment test	15	10	
Send Up test	35	35	
Class Test (best two)	10	10	
Log book	10	10	
Practical record book	-	10	
Attendance	5	5	
Professionalism	-	10	
ATCOM	10	-	
Total	100	100	

SRI GURU RAM DAS UNIVERSITY OF HEALTH SCIENCES, SRI AMRITSAR

Maximum Marks: 100

MBBS 3rd Professional Part-I Examination

Time: 3 Hours

Subject- ENT (New Scheme)

Notes:

- 1. Attempt all questions. Illustrate your answer with suitable diagrams where applicable.
- 2. Question No. 1 (Multiple Choice Questions (A-J)) is to be attempted on OMR Sheet in first 15 minutes of the start of exam.
- 3. Question No. 2-6 are to be attempted on the main answer book. No supplementary sheet shall be provided.
- 4. Students must write QP code in the space provided on OMR sheet as well as on the title page of the main answer book.

QP Code: MBN306

I. Multiple Choice Questions (MCQs):

[10X1=10]

- 1. A Which of the following is not a typical feature of Meniere's disease?
 - a. SNHL
 - b. Pulsatile tinnitus
 - c. Vertigo
 - d. Fluctuating deafness

2. All are true for Gradenigo's syndrome except:-

- a. It is associated with conductive hearing loss
- b. It is caused by an abscess in the petrous apex
- c. It leads to involvement of the cranial nerves V & VI
- d. It is characterized by retroosital pain

3. "Bleeding Polyp" of the nose is another name for:-

- a. Antrochoanal Polyp
- b. Juvenile angiofibroma
- c. Haemangioma of nasal septum
- d. Rhinosporiodosis

4. Adenoid facies includes all except:-

- a. Open mouth with under slung lower jaw
- b. Pincheal Nose
- c. High arched palete
- d. Crowding of teeth

5. Hairy Leukoplakia is caused by:-

- a. HIV
- b. EBV
- c. CORONAVIRUS
- d. HHV8

6. Most common benign neoplasm of Oesophagus

- a. Lipoma
- b. Leiomyoma
- c. Firoma
- d. Haemogioma

7. Hoarseness is the earliest symptom of carcinoma of:-

- a. Glottis
- b. Suglottis
- c. Supraglottis
- d. All of the above

8. A 10 year old boy developed hoarseness of voice following of diphtheria on examination Right vocal cord was paralyzed the treatment of choice for paralyzed vocal cord will be:-

a. Gel foam injection of Right vocal cord

- b. Fat injection of Right vocal cord
- c. Thyroplasty type 1
- d. Wait for spontaneous recovery of vocal cord

9. Most common malignancy seen in AIDS patients is:-

- a. Non Hodgkin's Lymphoma
- b. Kaposi Sarcoma
- c. Cancer nasopharynx
- d. Hairy Leukoplakia

10. Most common site of origin of Pleomorphic adenoma is:-

- a. Parotid gland
- b. Sumandiular gland
- c. Minor salivary glands of soft & Hard palete
- d. Minor salivary glands of Lip

II. Describe Glue Ear under following headings: -

[5x2=10]

- a. Etiology
- **b.** Clinical features
- c. Medical management
- d. Surgical Management
- e. Hearing tests

III. A 50-year-old male resident of China presented at ENT OPD with C/O cervical [1+2+2+1+2+2+ Lymphadenopathy, nasal obstruction with hearing loss with blood-stained Nasal discharge.

- a. What is most probable diagnosis from above history.
- b. How will you diagnose the above condition
- c. What is the etiology behind it.
- d. What can be the cause of hearing loss in the above statement.
- e. Treatment options
- f. Boundaries of Supraclavicular fossa

IV. Short notes: [8X5=40]

- a. Write a short note on C/F & treatment of Deviated Nasal septum.
- b. Explain C/F & medical treatment of OZAENA.
- c. Differential diagnosis of Killian's Polyp & components of Samter's triad
- d. What is the full form of TESPAL & classification of fracture maxilla with well labelled diagram.
- e. Write a short note on C/F & treatment of preauricular sinus
- f. Expalin Ohngren's line & Complications of Septoplasty
- g. C/F & management of Malignant Otitis Externa.
- h. Write a short note on Mutational Falsetto voice.

V. Reasoning Questions [3X5=15]

- a. Name the condition in which Griesinger's Sign is seen & what is the reason behind its formation & how will you differentiate it from swelling over mastoid seen in Acute Mastoiditis.
- b. Name one condition in which PARACUSIS WILLISIS & Schwartz's Sign is seen & what does presence of this indicates & name one finding seen on PTA in this condition.
- c. What is 10, Reactionary & Secondary Hemorrhage & What is the reason behind occurrence of Reactionary Hemorrhage.

VI. Applied Aspect: [3X5=15]

- a. Clinical Importance of Mac Ewan's triangle & define its boundaries. One Difference between Canal wall down & canal well up mastoidectomy.
- b. A 40 yrs. old man underwent Septoplasty & 3 days after surgery patient presented at ENT OPD with B/L nasal Obstruction. What will be your most probable diagnosis & how will you treat it & what complications it can lead to if there is delay in treatment.
- c. What is the clinical presentation of Ludwig's Angina & how will you treat it
